

Environment Policy of Matsukyu Co.,Ltd

【Basic Principle】

Considering the environmental problem that is one of the greatest issues for human beings presently, Matsukyu Co.,Ltd.

Promotes an environment conscious management through its business activities, and makes efforts to reduce environmental burden.

Thus we contribute to realize a society which is able to develop continuously.

【Basic Policy】

Our company brings forward production and development of eco-friendly products, and continuously supplies them to the society as a corporation that treats electrical parts switches. And, we exert ourselves to satisfy every customer's needs.

【Action Guideline】

1. We establish an environment management system that shall be reviewed periodically and improved continuously, and make efforts to prevent the environment from pollution.
2. We gain understanding of the influence to the environment that may be exerted by our business activities, and conduct eco-friendly activities.
 - Understanding consumption situation of energy like electricity, and reduction of it
 - Segregation of waste materials. and reduction of them
 - Advancement of our conscious mind about the environment and costs by conducting our 5S movements
3. We abide by relevant laws and regulations and other agreed matters, and make efforts to keep and improve our attitude toward compliance with them.
4. We will make our best efforts to supply eco-friendly products.
 - Transition to products that are compliant with RoHS directive and other restrictions
 - Development of products that do not contain any chemical substances which may give burdens on the environment
 - Control of chemical substances in both our products and production system
5. We promote environment education so that every employee of the company to know this environment policy, and to take actions being compliant with this policy.
6. This environment policy is disclosed broadly to the general.
